ELEKTRAL A.Ş, was founded by Mr. Sayil Dincsoy (M.Sc.) in 1978, provides high technology products from its vast integrated facility measured around 20.000m².

ELEKTRAL has 2 main production lines, Vending Machines and Security Metal Detectors. About 65% of our production is exported to more than 60 countries around the world. Elektral also cooperates with Asian, Far Eastern, German, Italian, US and various other European companies on co-production, OEM, ODM and international representation.

Recently Elektral was awarded as the "No.1 Company of the Shining Stars by the Turkish e-commerce Export Community and is among the top-ten tax-payers in its region and sector.

Due to increasing demand of Tru-VEND vending machines, Elektral has started operating in its recently acquired additional factory-space in the Atatürk Industrial Zone. The new set-up consists of CAD/CAM, sheet metal processing, polyurethane foam injection, electronics assembly area, new conveyed production line, end-quality testing Research & Development area. This enables the production of high-quality robust vending machines in matter of minutes from scratch!

Elektral has invested heavily in establishing a world-class group of R&D teams and facilities in Izmir (Turkey) to create innovative and profitable next generation products for international markets. Elektral has also established a ten-year plan to be one of the top 100 companies of the region and a World Brand in 'vending machine' manufacturing.

Vehicle Vendor®

Public Transport Vehicles & Bus/Coach Self Service Vending Machines

Vehicle Vendor®

A next generation vending machine with innovative platform and engineering so as to providing maximum operating efficiency, flexibility and profit.
Excellent capacity for transportation vehicles, buses/coaches for selling food and bottled drinks.
• Compact Design Vending Machine.
• Remote Connectivity feature via tablet, smart phone, PC (Elemetri).
• High performance with advanced ARM technology.
• MDB/Executive Protocol support.
• Compatible with all payment mechanisms: Coin Changer / Bill Validator / Credit
• Cards, Pre-Paid Cards.
• Data Transmission connection via WiFi, Ethernet, USB, RS232 and Firmware Update
• Availability via these interfaces.
• Touch-pad and Anti Vandalism Keypad.
• User Friendly Graphical LCD.
• Adjustable LED illumination
• Vandal proof double alarm system
• Reliable delivery operation thanks to advanced IR sensor system
• Efficient cooling during hot summer days
• Fortified polyurethane insulation system
• Mono-block trunk
• Suitable to operate with 24 V vehicle battery

Code: 869755498265
Dimensions: 85 x 125 x 50 cm
Weight: 155 Kg

Aqua Vend®

Aqua Vend is a specially designed vendor for busses, making cold bottled water service automatic.
• Occupies very little space thanks to its compact design.
• High performance ARM microprocessor.
• MDB/Executive protocol support.
• Automatic product dispense using Coin Validator, Credit Card Payment Mechanisms.
• 33 plastic bottles (500 ml) capacity with single selection, columns design mechanism.
• Effective cooling during hot summer season.
• Outer cabinet built with anti-corrosive steel material.
• Double level lock mechanism.
• 24 V vehicle battery operation

Code: 869755498261
Dimensions: 86 x 105 x 20 cm
Weight: 70 Kg

Mobi Snack®

Mobi Snack is a specially designed chilled snacks and drinks vendor with cooling module for busses.
• Compact Design Slim Line Small Location Vending Machine
• High performance with ARM processor technology.
• Stable payment mechanism with MDB Protocol based Coin Validator.
• Firmware Update, obtaining Logs, access to statistics, settings and storage with hand held terminal.
• Anti-Vandalism touch keypad.
• 16 x 2 characters LCD screen and easy user menu.
• LED illumination.
• Tampered double layer front glass widow.
• Reliable product dispensing with IR Sensors.
• Polyurethane injected effective insulation system
• Efficient cooling during hot summer days.
• Corrosion-resistant production material
• 24 V power supply battery operation

Code: 869755498262
Dimensions: 86 x 105 x 25 cm
Weight: 75 Kg

Mini-Icy®

The Mini-Icy®, powder based cold beverage dispenser is a must-have for workplaces and HoReCa (Hotels Restaurants and Cafes) businesses. Equipped with adjustable refrigeration settings and a mixer, the Mini-Icy® lets you serve your favourite beverage formula at your preferred serving temperature.

• 8 Cold-Drinks selection (4 single + 4 cocktail drinks)
• 4 X 1.8 Lt ingredient canisters
• Plug-Play Sliding Static Cooling Unit
• Stainless steel tank
• LED illuminated Advertisement Panel
• Optional Payment System compatible with parallel protocol
• Capacitive Touch Keypad
• 2 protection fuses

Product Code: 869755498276/01
Dimensions: 30 X 70 X 42 cms
Net Weight: 35 Kgs

Kafemat®

KafeMat® is a perfect fit coffee dispenser for offices.
• 3 Product Canisters 1 Mixer
• 4 Different Hot Drinks Selection
• USB connection, cloning (dosage adjustment) and "download Statistics" option
• Consecutive dispense of hot drinks without heat loss
• LCD screen, Direct Selection

Product Code: 869755498282
Dimension: 40 x 21 x 60 cm
Weight: 15kg

Super Souper®

"Super Souper" Soup Dispenser is our new range of Soup dispensing machine. This is a perfect fit in all HoReCa, and corporate offices so you can provide delicious soups to your employees and customers.
• Easy Programming with User Friendly 2 x 16 Character LCD Display
• Consecutive service of 50 cups without heat loss / 350 cups/hour serving capacity.
• 4 Product Canisters, 4 different flavor Soups
• 3 High Performance Mixers with Slide in type Motor Assembly enabling easy maintenance and cleaning
• Cup Counter, analyze statistics and advanced reports by USB

Product Code: 869755498279
Dimension: 42 x 40 x 70 cm
Weight: 31 kg

Mini Black INSTANT®

Mini-Black Instant is a brand new compact and stylish table top instant beverage machine which produces several drinks from soluble ingredients (instant coffee, chocolate, milk, tea). Mini-Black INSTANT® table top machines perform as impressively as they look.

• 3-4 Product Canisters(Optional), 2-3 Mixer (Optional)

• Consecutive service of 50 cups without heat loss, Capable of 350 Cups/hour.
• Large LCD screen, Direct Selection
• Optional Payment System compatible with parallel protocol
• 32 bit advanced electronic ARM processor technology
• USB connection, cloning (dosage adjustment) and "download statistics" option
• CE certified

Product Code: 869755498279
Dimensions: 40 X 42 X 70 cms
Net Weight: 31 Kgs

Change Giver and Card Recharging Machines

Maxi Change Giver and Card Recharging Machine

• Changes banknotes into up to 3 different denomination coins(Example: You may insert 10 EUR Bill and receive 4 x 2,00 EUR Coins, 1x 1,00 EUR Coin and 2 x 0,50 EUR Coins in return).
• Charging Contactless Prepaid Cashless Payment System Cards.
• Communicates with Coin Selector, Bill Validator and Cashless Payment System via MDB Protocol.
• Advanced Technology Bill Validator in use with 300 Banknotes Capacity Stacker.
• High Quality Coin Selectors in use accepting Coins and Change Function (Example: You may insert a 2,00 EUR Coins and May receive 1x 1,00 EUR Coins and 2x0,50 EUR Coins etc.).
• 1500 pcs storage capacity Cash Box.
• 3 different Hoppers (CCTALK).
• Each hopper has approx. 1000 pcs Coin Capacity.
• 4 different Buttons and 3 Different Selections (Metal Push Buttons).
• 16x2 Character LCD.
• Easy User Interface.
• RS232 communication interface (Optional Printer Unit etc. applications).
• Detailed Machine LOG keeping with Date-Time information.
• Machine Cloning and Saving Statistics using SD Card (read-write).
• Changing Menu Language via SD Card.
• Operates with 220V AC.
• Robust Metal Cabinet.

Code: 869755498294
Dimensions: 50 x 35 x 88 cm
Weight: 53 kg

Mono-Changer

• Accepts Banknotes and it changes them to only 1 type of coins. Can be used in places where number of Vending Machines are in operation, to eliminate the need of several payment mechanisms.
Includes 1 Hopper and 1 Bill Validator

• 300 banknotes, 1000 of 1 Euro coins or 1200 of 50 cent coins can fit in the Hopper.

Code: 869755498293
Dimensions: 30 x 30 x 46cm
Weight: 30 kg

PPE Vending Machine®

PPE Vending Machine®

Designed to provide usage limitation of personal protective equipment products on the employee basis, by using employee tracking system.
• 16-bit High Performance Microprocessor Controlled MDB and EXECUTIVE protocols supporting Change Giver, Coin Selector, Bill Validator and Cashless Payment Systems, integrated with Personal Control System.
• Standard 6 Trays, 54 Selections
• GSM/GPRS web based Remote Access and Data Transfer with PC (Telemetry) (Optional)
• BITE (Built-in Test Equipment) automatically Fixing problems and/or Warning
• Capacitive Touch Keypad

Other advantages from the conventional product.
• Reduces stock costs to minimum.
• Prevents irresponsible usage.
• Saves resources due to the controlled usage
• 24/7 service with no issues.
• Increases productivity
• Helps with supply issues
• Personnel and stock based control with remote tractability
• Daily, weekly and monthly reports availability
• Provides restricted and non-restricted usage options with personnel cards. With personnel traceability cards the equipment can either be offered without restrictions or with restrictions on products and personnel basis.
Dimensions 79 x 96 x 180 cm
Weight: 250 Kg

Vend-ICE ® – Midi

Vend-ICE – Midi ®

Medium version of our VEND-ICE Maxi. Freezing temperature system combined with latest vending technology packed in a compact size machine. This machine is designed to provide Low temperatures at user friendly power usage.

Specifications:
• Standard 4 trays / 28 selections / 224 products
• 16 bit high-quality microprocessor
• BITE – Built-In Test Equipment constantly checking for errors.
• Double Electronic Thermostat controlled energy efficient cooling feature provides long product life
• MDB-Executive-Parallel protocols are available. Payment systems such as Banknote Reader, Change Giver, Coin Selector and Cashless Payment Mechanism are supported.
• All status, parameters and alarm input / output of the cooling system can be monitored via a mobile phone and also by web based Remote Access and Data Transfer module
• Can be controlled via RS 232 interface.
• Enhanced Motor Control System enabling detailed functional control
• IR product sensors to control delivery
• Double-level alarm against vandalism and unauthorized access to front door and more
• Ultra-cool (-22 °C) refrigeration unit.

Product Code: 869755498228
Dimensions: 73 x 65 x 150 cm (wheels included)
Net Weight: 150 Kgs

Bread (Bakery) Vending Machine ®

Specially made for selling Bread, bagels and other Bakery items preferably packed. Keeps the products fresh and heated.
Specifications:
• 16 bit high-quality microprocessor
• Double-Glazed Low-E glass front
• MDB/Executive protocol for payment systems, can be equipped with cashless payment systems, Change Giver, Bill Validator and/or Coin Selector or combinations.
• Easy-to-use graphical LCD display.
• Adjustable trays and spirals, 7 Trays – Maximum product capacity (Optional), Standard 6 trays.
• The capacity of the products varies according to the size of the product to be placed in the vending machine, approximately as follow:
• Bun 9x6=54 pcs per shelve
• Bagel 4x12=48 pcs per shelve
• Bread (300 gr) 3x4=12 pcs per shelve
• IR product sensors to control delivery
• Temperature control from 0 to 40 °C

Product Code:
Dimension 79 x 96 x 180 cm
Gross Weight: 250 Kg

Midi Buffet STD

Snacks & Beverages Vendor

• Sturdy, aesthetic, medium capacity Midi-Buffet STD has superior features and can vend beverages and snacks such as biscuits, chocolate, sandwiches, crisps.
• ECONOMIC cooling feature.Code: 869755498265
• High performance microprocessor, MDB / EXECUTIVE Protocol Support.
• 4 shelves, 28 product selections (standard).
• Supports operating with Bill Validator, Coin Selector, Change Giver, Cashless Payment Mechanism, Credit/Debit Card Mechanism. Hand-Held Terminal allows easy access to Statistics, Data Logs, updating Settings and Records.
• Capacitive Touch Keypad and optional Outdoor Anti-Vandalism Metal Keypad.
• Easy to use Graphical LCD display and simple menu.
• Reliable operation with IR/Piezo Product Sensor.
• Outstanding Cooling Capacity even during summer days, with highly effective Cooling Module (+3°C).
• Robust steel cabin and reinforced Polyurethane Insulation System.
• Protection against wrong product refilling.
• Advanced IR sensor to control product delivery.
• Double-Level Door Access/Alarm against Vandalism and unauthorized access.
• Power LED Lightning Feature, Double-Glazing Tempered Low-E Glass front door.
• Low Energy consumption, environmental friendly.

Code: 869755498224
Dimenions: 87 x 70 x 154 cm (including wheels)
Weight: 150 kg

Midi Mobi® NOVO

Midi Mobi® NOVO
This Vending Machine is designed for selling Mobile Phone Accessories and similar products.

• Robust Design, preventing forced external damages, which allows vending of valuable items.
• Two levels with 26 selections each.
• Supports MDB/Executive protocols for payment systems.
• Cashless Payment Systems, Credit Card, Change Giver, Bill Validator and/or Coin Selector or combinations.
• EVA-DTS with GPRS support (Optional).
• BITE (Built-in Test Equipment) automatically fixing problems and/or displaying Warning Messages on LCD.
• Advanced IR product sensors to control delivery.
• Anti-theft products dispense hall cover.
• Secure alarm system to prevent vandalism or burglary & Electro-Mechanical Secure Locking System.
• Heavy duty, hidden hinges system in 4 spots

Code: 869755498225
Dimenions: 47 x 78 x 188 cm
Weight: 142 Kg

Midi Buffet®

Midi Buffet ®
A next generation vending machine with innovative platform and engineering for providing maximum operating efficiency and flexibility. Excellent capacity for smaller locations with base stand or can be wall-mounted

• Perfect for selling unusually small items
• Supports MDB/Executive protocols for payment system,
• Cashless Payment Systems, Credit Card, Change Giver, Bill Validator and/or Coin Selector or combinations
• Easy selection pricing feature
• Easy-to-use LCD display
• BITE (Built–in Test Equipment) automatically fixing problems and/or Warning Messages on LCD
• IR product sensors to control delivery
• Secure alarm system to prevent vandalism or burglary
• Smart online telemetry system with full audit control – sales, statistics, products, errors etc. is also supported

Product Code: 869755498224
Dimensions: 82 X 22 X 125 cms

Remote Control Software – Payment Systems

Elemetri®, Elemetri Pro®, Elemetri Cashless®

· All our High Segment vendors are compatible to operate with Elemetri®, Elemetri Pro® (Personal Protective Equipment Vendor) remote control software and Elemetri Cashless® payment systems.

Elemetri®

· Remote Access to all details (Shelves-Stock status, operating details etc.) of your vendor.

· Tracking the products stock, obtaining sales and collected cash logs.

· It saves your time, money and energy without having to go to the vending machine all the time.

Elemetri Pro®

· Implemented to the PPE Vendor, Elemetri Pro system allows settings/limitations of which and how many PPEs the worker may obtain.

· Provides statistical data analysis and reports for the past 10 years.

Elemetri Cashless®

· This payment system allows customers to use the vendors without the need of bills and coins through virtual POSs or payment gateways.

· Avoids complications like bill jams or deficiencies of monetary amount.

Since our vendors are designed with the latest MDB Protocols, they are compatible to operate with all kinds of payment systems (Change Giver, Coin Validator, Bill Validator, Credit/Debit Card Payment mechanisms)

Let your cell phone, tablet or PC become your Office!..
